

ANZ Certification List

ANZ Certification handbook for easy access

List of Certificates

The handbook provides information about certification policy, list of certifications, etc. relevant to you in your role in the ANZ Account.

• FSSBU Certification Policy

- At Capgemini, we support the development of employees' skills and expertise to enhance their performance and accelerate their career progression. Review the certifications in the global list on KM 3.0 (<https://km3.capgemini.com/book/311085>) and select the certification of your interest. Certifications must be in the pre-approved list.
- We wish to inform about certification guidelines: -
 1. As per the new certification policy, any employee who is desired to take the certification has to approach their respective practice SPOC before taking up the certification.
 2. FS L&D will reimburse the certification cost only when we receive the confirmation from Respective practice SPOC.
 3. You can request reimbursement for one approved certification per calendar year.
- The approved business case needs to be submitted to FS SBU Global Certification officer [Sowmya Balachandran](#) before you take the certification exam.
- The Certification Reimbursement Policy remains the same, for practice SPOC details and reimbursement policy and procedures you can refer to the below link.
